Subject: update for Monday
Date: Friday, April 05, 2013 3:03:10 PM

Okay –just in case you want to know what’s coming on Monday.

Wyoming Public Radio request for EPA comment on Wyoming OGCC’s assessment of the Madison formation AE request. We haven’t issued the letter yet but it will probably be going out on Monday. We can give her the letter – maybe need some summary messages. She also requested a more general interview about AEs and how common and if they’re getting more common due to uranium mining expansion...

Kate Fay asked me to schedule a meeting w/ Sadie Monday am - I might get 8:45 if you want to try to make that.
